\*The federal government requires that reading/English language arts, mathematics and science be given once in grades 10-12. Colorado is moving the high school science assessment to 12<sup>th</sup> grade starting in 2014-2015.

\*\*ELA and mathematics reflect expected testing time for the typical student. Test sessions will have additional time included to allow the vast majority of students to complete testing. ELA and mathematics testing times will be refined for 2014-2015 based on field testing.

\*\*\*Science and social studies estimated times reflect required session length. Starting in 2013-2014, districts may opt to let their students exit the testing session after approximately 55 minutes (total 165 minutes across the three sessions).
